

SPLASH! SONG LIST

"How does song selection work?"

This process is a compromise between two parties. We honor your preferences and ask you to trust our ability to call songs that create the best party possible.

Leading up to your event, you'll complete a song-list form and select every song you like. The more music you choose, the more beneficial the outcome. At our discretion, we'll play roughly 15-20 of your picks. You'll also select all music for your formal dances. Plus, we can learn two new songs that are not a regular part of our repertoire! formality dances take precedence.

"Can I choose all the songs you play?"

We are unable to perform with pre-determined setlists. However, your feedback heavily informs what we play.

"Can I make my own song list form instead of using yours?"

While this may seem helpful, we have a system that results in countless amazing parties. Our song list form is a critical part of this system. We appreciate your understanding.
